

# PERMITS FOR NEW DWELLINGS ISSUED

During the past week eight building applications have been received and granted by Fire Marshal Howard L. Stanton, while one other application recently received has not yet been granted. The eight permits granted include three for new dwelling houses, three garages and two for alterations and additions to present buildings. The application not granted is for a large dwelling house and garage to be built for John P. Rogers on Washington street. Although it is getting into the slack time of year in building trades, the building applications are still coming in as fast as at the height of the season.

Charles J. Matthews is to erect a small dwelling house on a lot recently purchased on Greenville Heights. The building will be of frame construction, with a gambrel roof and a small porch. The building is to be 16x22 feet.

George Deucher has the contract to erect a frame garage for Mrs. Katherine E. Leeper at the rear of 25 Roach street. The garage will have a cement foundation and the framework will be of spruce several with shingle roof.

The contract to alter the barn of Isaac Crumb at 49 Maple street has been let to F. J. Rogers. The construction will be of spruce, with clapboard sides and composition roofing. The foundation will be of concrete and cement.

A one and one-half story dwelling house is to be erected on Central avenue for H. Fournier. The building will be of frame construction, 24x24 feet, set on a concrete and stone foundation. The exterior finish will be in clapboards, with a gambrel roof covered with cedar shingles. There will be a porch on the house. Fournier & Baldwin have the contract.

A frame garage, 16x18 feet, will be built at 22 West avenue for William F. Fowler & Rattabun. The garage will have a concrete foundation and the exterior finish will be in clapboards and the interior finish will be in plaster.

John Vetter has awarded the contract for a two-story frame house to be built on Fowler avenue to Valentine Reich. The house will be 24x34 feet and will contain 10 rooms and bath. The exterior will be finished in clapboards and shingles, while the interior finish will be in hardwood and plaster.

A porch is to be built on the house of George Carter on 27th street and will be 13x21 feet. It will be of frame construction with spruce frame and slate-covered roof. Hiram H. Amburn is to do the work.

Three additional rooms are to be built on to the house of Frank Craska on Hillside avenue. The addition will be of frame construction and the finish both exterior and interior will conform to the present building.

John P. Rogers has let the contract for his new house at 167 Washington street to Peck-McWilliams company. The house will be 24x34 feet with an ell 18x15 feet. In the rear there will be a garage 20x20 feet. The house is to be of frame construction with stone and brick foundation and will be one of the most improved dwellings in the city.

Two rooms and bath, together with other improvements. The cost will be about \$2,000.

**Building Permits**  
Wm. D. Seagrave, frame garage, 258 Vauxhall street. Cost \$200.  
W. H. Relyea, frame house, 508 Ocean avenue. Cost \$3,000.  
J. J. Gagnon, frame greenhouse, 367 Ocean avenue. Cost \$500.  
S. J. Salloum, brick building, 561-563 Bank street. Cost \$3,000.  
Michael Sutter, frame garage, 333 Huntington street. Cost \$200.  
C. B. Kenyon, gas station, 687 Broad street. Cost \$200.

**LEBANON**  
The contracting for the plumbing and heating for Lebanon school has been let to Morley & Raftery, Williamstown. The work on the foundation has been started by the general contractor, Patrick F. Sweeney, Norwich. The general contractor includes the electric work. As previously described in The Record, the building will be used as a manual training department, the first floor will contain an auditorium, laboratory, domestic science room and a library, and the second floor will be used for class rooms.

**OLD LYME**  
George Griswold, Old Lyme, has the cellar excavated for an addition to his dwelling. It is to be of frame construction, 18x24 feet, two stories high. It will provide kitchen on the first floor and bedroom on the second.

**STONINGTON**  
Conrad Schmitt is preparing his land east of the borough for the erection of a new residence for his own use. The contract has not as yet been let.

**WESTLEY**  
Louis McLaren has started the erection of a new house for himself on Granite street. The cellar is now ready and work on the superstructure will start at once.

**PUTNAM**  
Aaron Gordon, of Max Gordon & Sons Corp., plans the erection of a fine new residence on the property he has recently purchased on the Slater avenue tract. The land affords 100 feet frontage on Broadway.

**COLLEGE MEN ADOPT ARMAMENT RESOLUTION**  
Chicago, Nov. 14.—Resolutions urging the limitation of armaments, the reduction of armies in the present era of disarmament and the elimination of the underlying causes of war were adopted by representatives of 225 colleges at the National Convention of Colleges and Universities on disarmament, which today effected a permanent organization to be known as the National Student Committee for the limitation of armaments.

Other resolutions commended the Washington conference and urged that courses of instruction be provided to acquaint students with the fundamental necessity of social co-operation and the disastrous consequences of the lack of international harmony.

The purpose of the new organization will be to stimulate among college students an interest in the issues confronting the Washington conference and to mobilize and make articulate student sentiment relative thereto, according to their conclusion.

**Way of It**  
Our elevator boys say: "Newspaper guys are funny. Whenever they meet they always ask, 'What do you know?' The other says 'Nothing,' and then the paper the next morning is filled with news.—Portland Oregonian.

**Stomach on Strike 20 Years**  
Eaton's Settled It!

"Eaton's is wonderful," says C. W. Burton. "I had been a sufferer from stomach trouble for 20 years and now I am well."  
Eaton's gets right after the cause of stomach troubles by taking up and carrying out the acidity and gases and of course, when the cause is removed, the sufferer gets well. If you have sourness, belching, indigestion, food repeating or any other stomach trouble, take Eaton's tablets after each meal and find relief. Big box costs only a trifle with your druggist's guarantee.

**LEE & OSGOOD**  
131 Main Street

## MULTITUDES IN BOSTON GREETED MARSHAL FOCH

Boston, Mass., Nov. 14.—Ferdinand Foch, marshal of France, spending today on soil that has bred soldiers since it was wrested from the wilderness, was welcomed as the greatest soldier of the world's greatest war. This multitude who lined the streets in a cold, wintry rain to see him pass and the carmen who at three educational institutions which honored him with degrees told the marshal that Boston had gladly numbered him among her heroes.

But when he left this city late tonight for Princeton, N. J., one tribute among the day's salutations still stands in his ears. That was the cheering of the 40-odd children who flanked Commewaseth avenue for more than a mile to catch a glimpse of the little figure whom they knew as "The Man Who Won the War."

There were cheers for Foch at Harvard, at Boston University and at Boston College—rolling football yells, every one of them—that surpassed in volume the applause of the youngsters, but no participants in the day's long programme were more surely in earnest than Boston's young folk.

The weather that marked the marshal's visit was typical New England's. When he arrived at the South Station at 10 o'clock this forenoon in his special train and was falling back in memory of the day's long programme.

After spending last night aboard his train at East Junction, thirty miles south of the city, the marshal began the busy day at the State House, where he was welcomed for the Commonwealth by Governor Corbin. He proceeded to city hall to receive the keys of the city from Mayor Andrew J. Peters, then was hustled to Boston College for his first honorary degree.

At a luncheon tendered him by Mayor Peters, the guest of honor became state commander of the American Legion for half an hour. Major James T. Dunne, head of the Veterans' organization in this state, announced his resignation and requested that his comrades put in his place "the greatest leader in the Universe—Ferdinand Foch."

After a rest Marshal Foch and his party drove over a long line of the city took their turn through the heart of the city. They rode for miles between veterans of many wars as well as civil organizations drawn up at attention along the streets. Raising the state house the procession moved slowly so that the hundred gold star mothers of Massachusetts could see the chief to whom they had given their sons.

The exercises at the Harvard University were held in Sanders theatre, with in Memorial hall, crowded in memory of Civilian soldiers who gave their lives in the Civil war. President A. Lawrence Lowell who conferred the honorary degree of Doctor of Laws upon Marshal Foch, paid tribute to his military skill, and the marshal in response spoke of what Harvard men had done for the allies in the world war. Leaving the theatre the marshal was driven across the Harvard yard to the Webster Memorial library and as he climbed the steps the guns of the student battery belated out a long salute. In the building he showed special interest in the portraits of Harvard students who between 1914 and 1918 left the quiet yard for noisy France, not to return.

Marshal Foch paid a visit to Cardinal O'Connell, archbishop of Boston, which was the only personal call on the day's programme. The cardinal and marshal chatted for several minutes before Foch returned to his hotel to rest again prior to the banquet given him by the state and the convocation of Boston University at which he received his third honorary degree of the day.

**ARMAMENT RESERVATIONS DESIRED BY GREAT BRITAIN**  
(Continued from Page One)

making a wholesale replacement at the end of ten years would have to be kept in organization, and although great fleets of warships might be consigned to the junk pile, the facilities for reproducing them still would exist.

Such a programme, the British naval experts say, does not go to the root of the question. Therefore they will propose that, for instance, a one ship production equipment be left to each nation, to fit in with a replacement programme extending over a period of years, and that in immense properties, equipment, technical staffs and other organization which would have to be kept in readiness to take up a replacement programme in ten years be dispensed with.

**ADMIRAL BARON KATO SEES DISADVANTAGES TO JAPAN**  
Washington, Nov. 14 (By the A. P.).—"It isn't the scrapped ships that count; it's the ships afloat," declared Admiral Baron Kato today in answering a series of questions put by Japanese newspaper correspondents concerning the American proposals.

One of the men from Tokyo asked: "Isn't it true, admiral, that the ratio of scrapped warships under the Hughes proposition is rather disadvantageous to Japan, considering the present inferior naval position of our country? Aren't they asking too much from us?"

The admiral responded: "Why talk about the scrapped ships? You should know that what really counts is the number of fighting ships left afloat."

## HOW A FAMILY WON FREEDOM FROM THE CATHARTIC HABIT

LIKE NEARLY ALL PEOPLE, THE MEMBERS OF THE FAMILY OF MR. LEWIS B. RAY, 5 WASHINGTON ST., PAWCATUCK, CONN., HAD USED LAXATIVE MEDICINES FROM TIME TO TIME. LIKE MILLIONS OF OTHERS THEY WERE VICTIMS OF WHAT A FAMOUS DOCTOR CALLED "THE LAXATIVE HABIT." MR. RAY TELLS HOW THEY BROKE THE HABIT.

"Like most other people, we had often been troubled with constipation, and would find relief by taking cathartic medicines. We of course got the result for which we chiefly took them, but we were left weakened and in pain and we felt the disagreeable after effects that cathartic medicine brings, yet we did not see how we could do without it. Then a friend suggested that we try Sennalax. He told us that it was not a cathartic, but that if we took it long enough, it would fix us up so that we would not need cathartics at all. A bad way, he said, but it was worth a try. We changed. But to be fair, I got another bottle. We all felt the effects of that. Gradually all our organs seemed to begin up, stomach, kidneys, liver and bowels became regular. That is to say that Sennalax just put us in the healthy condition that people would be in if they were right. We have taken several bottles since that. We just take a little from time to time, whenever we feel in a bad way. Sennalax keeps us in good health, and it does not seem like taking medicine. It certainly is right to call it 'Sennalax the Sensitive Tonic'."

The owners and clerks of all progressive drug stores, especially the following, will cheerfully sell you Sennalax. H. M. Leroy, 287 Main Street, Norwich; Peter Bennett, Taftville.

There engaged, it was said, proved that could not lie in the line.

**SIX SUB-COMMITTEES OF ADVISORY COMMITTEE**  
Washington, Nov. 14 (By the A. P.).—The advisory committee of the American delegation at the armament conference today selected six sub-committees to work out a plan in connection with the items on the agenda of the general armament conference.

After Assistant Secretary Roosevelt's report, the committee had explained the Hughes programme, declaring it would mean a saving of more than two hundred million dollars on construction, there was much informal discussion. Members saying later the committee stood as "one man" in support of the program.

Chairman Sutherland of the advisory committee was named as chairman, ex-officio of the executive committee, while Mrs. Eleanor Franklin Dean as secretary. Other members are: Under Secretary of State Fletcher, Samuel Gompers, Secretary Hoover, Assistant Secretary Roosevelt, former Senator William Borah, Secretary of the Navy, Mr. B. H. Thompson, New York.

The other committees were: Land, chairman—General Pershing, chairman—Charles M. Barrett, Mrs. Charles Sumner Bird, Walter George Smith, Rear Admiral W. H. Porter, Assistant Secretary of the War Department, and John L. Lewis, Pacific and Eastern questions—Stephen G. Porter, chairman; Mrs. Katherine Phillips Wilson, Mr. Gompers, Mr. Salisbury, Harold M. Sawicki, Mr. Smith and Mrs. W. H. Thompson.

**NAVAL OFFICERS SEE END OF BATTLE CRUISERS**  
Washington, Nov. 14 (By the A. P.).—The Washington conference will see the end of battle cruisers as naval weapons in the opinion of many naval officers here. It is not alone, it was said today, that the American proposals for the limitation of armaments would result in the scrapping of the present fleet of battle cruisers, but also that the construction of new battle cruisers would be stopped.

It may well be that the will of the United States under the Hughes proposition, submitted by Secretary Hughes to the conference, which would leave the American fleet without battle cruisers although Great Britain and Japan would retain four each, rests partly at least on these conditions.

The original argument for battle cruisers was that swift, heavily armed ships would be invaluable for scouting purposes to go ahead of the battle fleet and establish touch with the enemy. Naval reaction had then developed the wide spreading destroyer and light cruiser screen idea to mask themselves of a main fleet. A battle cruiser, it was said, would have power and speed to cruise through such a line, locate the main fleet and secure to its own fleet with the vital information.

At best, however, it is now said, battle cruisers of the latest type yet planned would not exceed 25 knots speed, while aircraft carriers of the latest type, immune from attack by surface craft so long as they stayed high in the air, and cheap of construction can operate much more effectively when it is necessary to know what may lay behind an enemy screen.

The other point in favor of battle cruiser construction was that they could form a swift wing for a fleet, and that in the line of battle to some extent because of their heavy guns, something in size and power those of the battleships.

That theory is now held to have some basis at the battle of Jutland. What happened to the battle cruisers

## HOW A FAMILY WON FREEDOM FROM THE CATHARTIC HABIT

LIKE NEARLY ALL PEOPLE, THE MEMBERS OF THE FAMILY OF MR. LEWIS B. RAY, 5 WASHINGTON ST., PAWCATUCK, CONN., HAD USED LAXATIVE MEDICINES FROM TIME TO TIME. LIKE MILLIONS OF OTHERS THEY WERE VICTIMS OF WHAT A FAMOUS DOCTOR CALLED "THE LAXATIVE HABIT." MR. RAY TELLS HOW THEY BROKE THE HABIT.

**THE PORTEOUS & MITCHELL CO.**  
**THE PRICE READJUSTMENT SALE**  
IS NOW IN PROGRESS, TO CONTINUE ALL WEEK  
Giving the public the benefit of lower prices on merchandise NOW — right at the opening of the season — when the seasonal requirements are most urgent.

As An Added Attraction, During the PRICE READJUSTMENT SALE We Offer 500 Decorated Metal Candy Boxes At Prices Most Amazingly Low

These exceedingly popular "Candy" Boxes combine usefulness and beauty. They are well adapted for Candy, Cookies, for Fancy Cake, for Work Boxes, etc. Some will use them to enclose Christmas presents. They are made with extreme care, are light, and in handy sizes, with sufficient weight of metal to ensure good service. The edges on both box and cover are rolled, to prevent cutting. The colors are rich and beautifully executed, closely resembling hand-work, particularly in the rose pattern. Boxes that have been selling for much more are not so well made as these. You'll agree with us that we are selling these at ridiculously low prices, but we are glad to pass along the benefit of a fortunate big purchase.

The Supply Will Melt Away at These Low Prices

**35c each** For the medium size, round and oval. Choice of four fine patterns. This is the popular 2 pound size — the round boxes measuring 7 inches in diameter, the oval ones 7 1/2 x 8 1/2 inches.

**15c each** For small round ones with gilt Peacocks. Four inches in diameter, these are a very convenient tuck-away size, for powder puff, or to place in the corner of sewing basket or hand-box, to hold spools, or candy and nuts, or cookies.

**59c each** These are five pound size—big, roomy boxes, 10 inches across and over 2 1/2 inches deep, and are suitable for any number of purposes: many women will make good use of them as work-boxes, so attractive in appearance they are ornaments wherever they are placed.

**IN TWO DESIGNS**  
Lacquered Boxes, with the gilt Peacock pattern on gray and black background. Tapestry design, in orchid, silvertone and dark gray.

ON SALE NOW—ON MAIN FLOOR

**Domestic Department**  
The Lowest Prices for Staple Merchandise That Have Been Quoted in Years.

**"And Man, How I Did Eat Real Food!"**

LOOKING BACK, now, to those vacation days, there's a lively kindling of joy—even in the memory of appetite at camp-fire meals.

Real food—and real hunger!

That's the year-around relationship between appetite and Grape-Nuts—that crisp and wholesome gift from the great out-of-doors—the perfected goodness of Nature's best food grains.

There's a flavor and charm to Grape-Nuts that appeal to the appetite like the tang of the summer camp, and there's a scientific balance of nutrition and a readiness of digestion that make Grape-Nuts a wonderful aid to health and vigor.

"Real food!" is the verdict of enthusiastic thousands who find a daily delight in the unique sweetness and crispness of Grape-Nuts, and who "carry on" splendidly with its body-building nourishment.

Let the zest of appetite be a companion of your indoor meals, too.

Grape-Nuts is sold and served wherever good food is sold and served.

**"There's a Reason" for Grape-Nuts**

Dr. Leonhardt found the cause of Piles to be internal, his prescription, Hem-Roid, has an almost unbelievable record for quick cures. Hem-Roid is sold by all druggists. Ask Dr. Leonhardt for it with money-back guarantee.

**A Great Discovery**
